QCBC members Lex Ranke, Jack Rhode, Julie Jeffries and David O’Gorman were first in the Intermediate, having won every round, but were beaten into 4th place on the final round.

Two-Over-One

Here’s Paul Marston’s comment from the Weekend *Australian* newspaper.

Just as surely as strong two openings gave way to weak twos, standard bidding systems will give way to Two-over-one. This is because it does the job better and it’s easier to use.

Two-over-one is not really a new system, it is just a new arrangement in one particular area. Instead of treating a simple response at the two level as 10+ high card points as you do in standard, Two-over-one treats it as showing 13 HCP, in other words, enough for game. The advantage is that it leaves the partners free to quietly talk to each other without the fear of being dropped.

Two basic books explaining Two-over-one are Bridge: 25 steps to learning 2/1 by Paul Thurston and 2/1 Game Force by Audrey Grant and Eric Rodwell.

Joan Butts has been running classes on 2/1 and will answer questions you have about its use on the ABF Forum. <http://www.abf.com.au/forums/forum/bridge-questions/>
